DETAILED ACTION

Response to Amendment

This Office action is in response to Applicant's communication filed June 22, 2006 in response to the Office action dated April, 2006. Claims 1-8, 10, 13, and 16 have been amended. Claims 9, 14, 15, 19, and 20 have been cancelled. Claims 1-8, 10-13, and 16-18 are pending in this application.

Allowable Subject Matter

Claims 1-8, 10-13, and 16-18 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose the combination including the limitations of:

(Claim 1) "...computer readable code configured to determine whether a memory object requested by a process running on a processor comprises a shared-memory object;

computer readable code configured to select a locality to be within interleaved memory of the multiprocessor apparatus if the memory object comprises said shard memory-object."

(Claim 10) "...wherein said instructions executed by the VM fault handler (a) determine whether the memory object comprises a shared-memory object, and (b) select the default locality to be within the interleaved memory of the system if the memory object comprises said shared-memory object."

Art Unit: 2185

As dependent <u>claims 2-8, 11-13, and 16-18</u> depend from an allowable base claim, they are at least allowable for the same reasons as noted above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
